

**Blanket Purchase Agreement  
GSA/FAS/SmartBUY PMO & DoD/ESI Enterprise Software Agreement (ESA)**

In the spirit of the Federal Acquisition Streamlining Act, the General Services Administration (GSA), Federal Acquisition Service (FAS), SmartBUY Program Management Office (PMO) and The Winvale Group (dba Network Federal) enter into an agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule (FSS) Contract ([GS-35F-0074S](#)).

FSS Contract Blanket Purchase Agreements (BPAs) reduce contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The objective is to create a purchasing mechanism for the Government that works better and costs less.

This BPA has been designated as a co-branded GSA/FAS/SmartBUY PMO and DoD/ESI Agreement, which is open to all U.S. Executive Agencies (as defined in 48 CFR 21), including the DoD, authorized state and local government entities, and authorized contractors, except as restricted herein.

Attachments to this Agreement are:

- Attachment A – Product and Price List
- Attachment B – License Agreement
- Attachment C – Fees and Payments
- Attachment D – Report of Sales Format (SAMPLE)
- Attachment E – Statement of Work (Baseline Configuration, Network Mapping, & Vulnerability Assessment attachments)
- Attachment F – Cooperative Purchasing Program Participation
- Attachment G – Common Security Configuration Certification
- Attachment H – FIPS Validation Certification

All orders placed against this BPA are subject to the terms and conditions of the FSS Contract. The products and services available under this BPA are set forth in Attachment A. License terms and conditions applicable to products acquired under this BPA are defined in the The Winvale Group (dba Network Federal) License Agreement, included as Attachment B. The Order of Precedence for resolving any inconsistency between the Commercial License and the GSA contract terms shall be as specified in the GSA contract's Commercial Item clause, FAR 52.212-4, and the provisions of FAR 52.212-4 specified in FAR 12.302, as required by Federal law, shall prevail over any terms of the commercial license.
2. **Extent of Obligation.** The Government estimates, but does not guarantee, that the dollar amount of purchases through this agreement, over its entire period of performance, will be \$20,000,000.00. The Government is obligated only to the extent of authorized purchases actually made under this BPA.

3. **Funds Obligation.** The BPA does not obligate any funds. Funds will be obligated on each delivery order.
4. **BPA Term.** In accordance with FAR 8.405-3(c), the term of this BPA shall not exceed five years from the award effective date (Face Page, Block 31c.). The BPA will be reviewed annually to ensure that it still represents a “best value”.
5. **Pricing Terms.** Attachment A provides unit prices as explained below. Prices shall not escalate, and Attachment A is not subject to upward adjustment during the term of the BPA. Spot discounting is encouraged. The prices will be reviewed annually, or as required to determine whether a reduction is appropriate in accordance with the price reduction provisions of the agreement. A 2.0% Acquisition, Contracting, and Technical (ACT) Fee shall be included in the prices. The contractor shall be responsible for the payment of all fees that are included in the product pricing (i.e. GSA, ACT), as calculated on the customer orders, in accordance with **Attachment C.**
6. **Discount Terms and Conditions.** The products, services, and maintenance available under this BPA, including applicable discounts, are delineated on Attachment A.
7. **Out-Year Prices.** The products, services, and maintenance available under this BPA, including applicable discounts, are delineated on Attachment A.

If at any time the prices under any other contract instrument become lower than the prices in this BPA, this BPA will be modified to include the lower prices.
  - 8.2 **SmartBUY Transition.** In the event that a federal agency has a current agreement for the supplies and services under the SmartBUY agreement, they shall have the right to acquire licenses and support under the SmartBUY agreement after expiration of the current term (prior to exercising the next annual option, if applicable).
9. **License Agreement.** Notwithstanding any provision to the contrary, licenses are transferable within the authorized users as stated in paragraph B.1. (Example: Software licenses available for purchase under this BPA are delineated on Attachment A and are subject to the licensing provisions and the terms of the GSA Contract. Any delivery order issued hereunder will serve as proof of purchase. Upon validation and receipt of software, customers will be provided an electronic version of the license agreement.) The following provisions will be included in a license addendum if the BPA is awarded to other than the software publisher: **NA**
  - 9.1 **Functionality Replacement and Extended Support.** If the form, fit, or functionality contained in any licensed products acquired hereunder is substantially reduced or if the product is replaced, and/or (the contractor), provides this same or substantially similar functionality as a separate or renamed product, then the GSA/FAS/SmartBUY PMO and the DoD/ESI are entitled to license such software at no additional licenses or maintenance fees. However, throughout the term of this agreement, the contractor will provide support services for a period of one year.
  - 9.2 **Rights of Survivorship of the Agreement.** This Agreement shall survive unto **The Winvale Group (dba Network Federal)**, its Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive this agreement notwithstanding the acquisition or merger of **The Winvale Group (dba Network Federal)** by or with another entity.

Any software name changes, re-packing or merger of similar products that carry forward the same or similar function of the software shall be supported with updates, upgrades and new releases under this agreement at no additional cost.

- 9.3 **Audits.** In lieu of any audit provisions in the license agreement, Licensee may perform an internal audit and will use its best efforts to keep full and accurate accounts that may be used to properly ascertain and verify numbers of licenses in use.

## C. ORDERING

1. DFARS Section 208.74 directs DoD software buyers and requiring officials to check the DoD/ESI website for DoD inventory or an ESA before using another method of acquisition. These steps for the buyer are summarized from the DFARS:
  - a. Check the Enterprise Agreement Summary Table to determine if software rights or maintenance have already been purchased and are available from DoD inventory. If they are available, purchase the designated software from DoD inventory and reimburse the SPM.
  - b. If the required software rights or maintenance are not available from inventory or from an ESA, you may use an alternate method of acquisition, subject to laws and policy.
  - c. If the required software rights or maintenance are not available from inventory but are available from an ESA, you must follow the procedure in the DFARS Section 208.74.
  - d. If you must obtain the software or software maintenance outside the DoD ESA, you may seek a waiver from a management official designated by your DoD Component.

The GSA/FAS/SmartBUY PMO will post information regarding the agreement on their website, <http://www.gsa.gov/smartbuy>. This BPA will also be posted to the DoD/ESI website as part of the ESI program. The website can be viewed at <http://www.esi.mil>.

This guide shall be continuously updated as required. The guide shall contain all information necessary for geographically dispersed activities to place orders, including, as a minimum:

This BPA may also be loaded into electronic catalog systems.

5. **Delivery Schedule.** The Contractor shall make available the current version of software via electronic download or hard copy media within one day of receipt of order.

#### D. INVOICING AND PAYMENT

1. **Invoicing.** The requirements of a proper invoice are as specified below as required by FAR 52.212-4 in the Federal Supply Schedule contract. Full text of this clause can be found at URL: <http://farsite.hill.af.mil/>. Full text of this clause can be found at URL: <http://farsite.hill.af.mil/>.
3. **Precedence.** The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and the Contractor's invoice, the provisions of the BPA will take precedence.

## E. BPA MANAGEMENT AND OVERSIGHT

1. The Contractor must provide centralized administration, in the form of a Program Manager, in support of all work performed under this BPA. The Program Manager, at a minimum, is required to participate in periodic program management reviews (which may require travel to a Government named site). Additional functions would include customer service, periodic program management reviews, invoicing, payment and submission of monthly and quarterly reports.
2. **Report of Sales.** Consistent with Clause C.22 of the GSA Schedule, a Report of Sales as described herein shall accompany the remittance of the ACT Fees to enable verification of the fee amounts rendered. Submission of the Report of Sales shall be submitted to the SPM and the PCO in electronic format within fifteen (15) days following the completion of the monthly reporting period, or as otherwise requested by the SPM. **The report shall be submitted in the standard format shown in Attachment D. Negative reports are required.** The SPM or PCO shall provide written approval of each report. At the end of each calendar quarter, the written approval provided to the contractor will be accompanied by a request to remit ACT fees. The SPM or PCO will provide copies of the Report of Sales on a quarterly basis to the DoD Components participating in fee sharing.
3. **United Nations Standard Products and Services Code.** The United Nations Standard Products and Services Code (UNSPSC) may be a required field for the Report of Sales. The UNSPSC is a coding system used to classify both products and services for use throughout the global marketplace. The UNSPSC code permits software asset management through a standard coding structure. The management and development of the UNSPSC Code is coordinated by GS1 US. The current version is available free as a download at <http://www.unspsc.org>.
4. **Records.** The Contractor shall maintain archival copies of all orders for the life of the BPA. Copies shall be made available to the Government upon request.
5. **Program Management Reviews (PMR).** The Contractor shall participate in regular reviews of the progress of the BPA. Reviews shall be conducted annually and scheduled by the Software Product Manager. During these reviews the Contractor shall report on among other things, status of BPA sales, marketing and any outstanding issues concerning the BPA. The PMR agenda and presentation format shall be prepared by the SPM and provided to the Contractor prior to each PMR. Travel expenses are the responsibility of the contractor.
6. **Sales Leakage.** The goals of the GSA/FAS/SmartBUY PMO and DoD/ESI Program can only be realized through cooperation between the Government and the Contractor to direct appropriate sales through GSA/FAS/SmartBUY PMO and DoD/ESI vehicles. The Contractor shall ensure that all sales personnel are aware of the GSA/FAS/SmartBUY PMO and DoD/ESI Program and enforce the policy that this BPA is the preferred procurement vehicle for the products within. The Contractor shall also establish a process to regularly audit sales to Government buyers, determine where sales outside the GSA/FAS/SmartBUY PMO and DoD/ESI vehicles are occurring, and take appropriate action to direct further sales through the GSA/FAS/SmartBUY PMO and DoD/ESI vehicles. Results of these audits will be presented as an agenda item during PMRs.
7. **Marketing.** The Contractor shall dedicate reasonable resources to this effort and work to market and advertise this agreement. Desired actions include: advertising resultant vehicles on the contractor's Internet site and advertising the agreement at relevant trade shows, participation in GSA/FAS/SmartBUY PMO and DoD Component sponsored events and news media geared to Government/DoD IT people.

- 8. Enterprise Integration Toolkit.** The Enterprise Integration Toolkit is a program developed by the Assistant Deputy Under Secretary of Defense, Logistics Systems Management (LSM), to assist DoD Program Managers, Contracting Officers and members of the Integrated Project Team (IPT) in the acquisition and implementation of Commercial Off The Shelf (COTS) Business Systems software.

The Toolkit provides guidance, processes and tools to define program needs and determine how to best meet these needs through an external acquisition via a three-tiered Roadmap to guide the entire life-cycle from problem definition to solution roll-out. It provides a collection of best practice tools adopted from the commercial industry, and includes more than 100 best practice templates, guides, checklists, and samples.

Because the Toolkit is not vendor specific and may be applied across a variety of COTS software package implementations, including this BPA, the Contractor, shall be familiar with the Toolkit and include as part of the Marketing effort required above, a description of the Toolkit for their customers, and a link to the Enterprise Toolkit website at: <http://www.eitoolkit.com>.

The standard installation, operation, maintenance, update, and/or patching of software shall not alter the approved FDCC configuration settings. The information technology should also use the Windows Installer Service for installation to the default "program files" directory and should be able to silently install and uninstall. Applications designed for normal end users shall run in the standard user context without elevated system administration privileges.
- 4. Net-Centricity.** The Department of Defense is transforming the way information is managed to accelerate decision-making, improve joint warfighting and create intelligence advantages. To reach this "Net-Centric" state, DoD must exploit advancing technologies that move the enterprise from an application centric to a data-centric paradigm. DoD/ESI vendor partners are encouraged to use the OSD NII DCIO Net-Centric Checklist, located at <http://www.dod.mil/nii/doc/>, to provide information on the Net-Centric posture of their IT products and services.

5. **Section 508 of the Rehabilitation Act Compliance.** All products provided under this BPA must meet the applicable accessibility standards at 36 CFR Part 1194 as required by FAR Case 1999-607.
